

## **CONFIRMED COVID-19 CASE AT CALEB HITCHCOCK HEALTH CENTER**

BLOOMFIELD, CT, Mar 30, 2020 – A resident at Duncaster’s Caleb Hitchcock Health Center has been diagnosed with COVID-19. The resident is being isolated in a private room at the Caleb Hitchcock Health Center, which is a separate building from the residential neighborhoods on Duncaster’s 94-acre campus.

“We have notified public health officials as required and are following procedures recommended by the Centers for Disease Control & Prevention,” said Ami Desai, Caleb Hitchcock’s Administrator. “We are taking every step as recommended by authorities to contain the spread. We are extremely fortunate to have the clinical guidance and oversight from our Harford HealthCare physicians.”

The Duncaster campus has been closed to all visitors since March 12 in accordance with CDC guidelines. This included Caleb Hitchcock Health Center as well as the main campus. All planned events on the entire campus were also cancelled at that time.
